React Bridge Program - Graduation letter

Chidi Orji

Overall Program Evaluation

Grade: *Meeting Expectations*
Overall, we consider that Chidi is a great Engineer, and we acknowledge his proficiency at React.

Role expectations & responsibilities

Expectations and responsibilities from Talent apprentices from the beginning of and throughout the TopAcademy program are:
- Advance their knowledge of concepts and technologies.
- Become proficient in the topics covered by the learning path.
- Deliver tasks autonomously.
- Review the work of their colleagues as a final authority for a release.
- Follow the team processes.
- Actively participate in the meetings, including Scrum meetings, squad meetings, pair programming sessions, etc.
- Consider multiple quality dimensions like user impact, failure tolerance, code maintenance, implementation time, security breaches & performance.
- Care for and monitor the quality of the product the team is building.
- Be able to solve complex problems, consider multiple solutions, weigh them, and decide on the best course of action.

Performance evaluation

Professional development
- Chidi has been able to do advanced stuff.
- From the technical point of view there are not many gaps.
- Chidi is very knowledgeable.

Positive behavior
- Chidi bring great attitude and motivation towards the work, is a pleasure having him on the team.

Teamwork
- Chidi has improve (and probably needs to refine even more) his readiness for remote environment.
- Chidi is collaborating with others, and being a great team player.

Task completed
- Chidi contributes with excellent quality, but sometimes the delivery pace can be improved.

Some areas of improvement are :
- Chidi readiness for remote environment can be improved
- In the communication area , he has a strong accent and sometimes is hard to understand.
- Chidi contributes with excellent quality, but sometimes the delivery pace can be improved.

Testimonials

Daniel Jianu - Senior Front-end Engineer Coach
"Chidi has shown great interest in expanding his technical knowledge, and has made good contributions to TopTaste, albeit somewhat slower than expected.
While initially his communication skills and remote work preparedness made it a bit harder to collaborate with, we eventually found common ground and he became an integral part of the team.."

Adonis Butufei - Senior Front-end Engineer Coach
"Working with Chidi was a real pleasure.
He is a kind person with strong professional knowledge."

TASTE-332

Description

This Pull Request adds a form with which to add comments to a recipe.

How to test

Automated tests

1. Run `yarn test:unit` to run all unit tests or `yarn test:unit src/components/SubmitComment` to run the test for this PR in isolation.
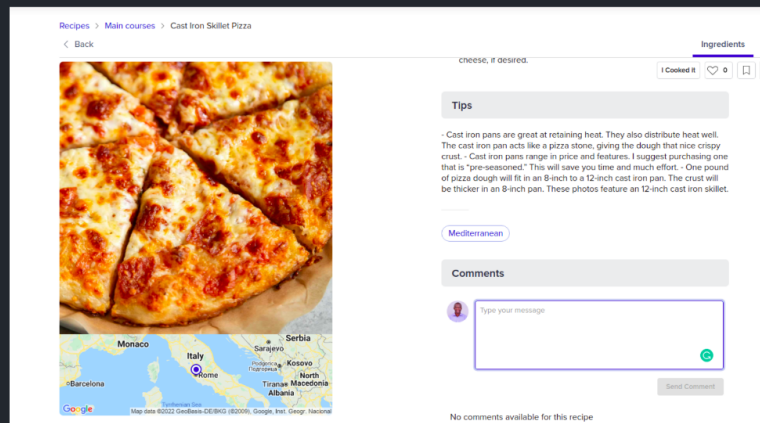

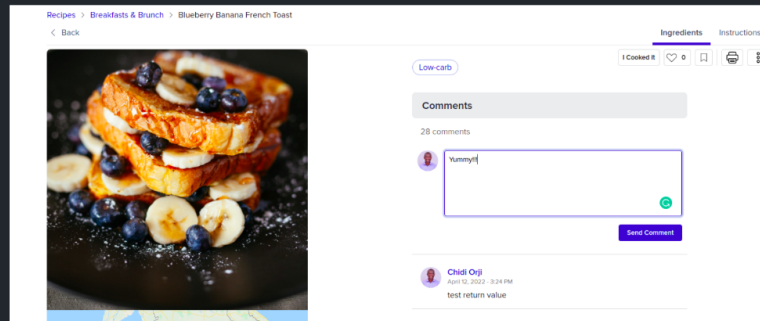

UI (manual) test

1. Run `docker-compose run --rm app yarn knex seed:run`
2. Login to the app and navigate to any recipe.
3. Enter at least 3 characters in the comment box and click on `Send Comment`
4. Your comment should appear under the comments section heading

Pre-merge checklist

- ☑ The PR relates to a single subject with a clear title and description in grammatically correct, complete sentences.
- ☑ Verify that feature branch is up-to-date with `master` (if not - rebase it).
- ☑ Double check the quality of commit messages.
- ☑ Squash related commits together.

TASTE-332

Description

When a comment is added to a recipe with no comment, the comment does not show. This PR fixes that situation

How to test

Automated tests

1. Run `yarn test:unit` to run all unit tests or `yarn test:unit src/components/SubmitComment` to run the test for this PR in isolation.

UI (manual) test

1. Run `docker-compose run --rm app yarn knex seed:run`
2. Login to the app and navigate to any recipe, preferably one with no comments.
3. Enter at least 1 characters in the comment box and click on `Send Comment`.
4. Your comment should appear under the comments section heading

Pre-merge checklist

- ☑ The PR relates to a single subject with a clear title and description in grammatically correct, complete sentences.
- ☑ Verify that feature branch is up-to-date with `master` (if not - rebase it).
- ☑ Double check the quality of commit messages.
- ☑ Squash related commits together.
